SECTION V: Summary Of Duties

The Aviation Technical Supply Clerk is a key coordinator within the aviation logistics and materiel management section of the Army Aviation Support Facility (AASF). The primary purpose of this role is to manage the procurement, tracking, storage, and turn-in of high-priority aviation parts, Depot Level Repairables (DLR), and specialized shop equipment. A brief description of these duties includes, but is not limited to:

1. Manages the end-to-end procurement, budgeting, and return process for Depot Level Repairable (DLR) and Class IX (CLIX) repair parts. Responsibilities include forecasting and administering the annual DLR budget, verifying part availability, and coordinating the distribution of supplies to maintenance shops. Additionally, the incumbent manages the recovery and retrograde shipment of unserviceable parts to depots, ensuring accounts are properly credited through coordination with civilian and military agencies.
2. Maintains property book accountability and equipment coordination by utilizing manual or automated supply systems and managing hand receipt files. Additionally, it directs periodic visual inventories, transfers, and serviceability inspections to ensure all authorized equipment is accounted for, properly stored, and maintained.
3. Analyzes complex supply transactions and provides specialized customer service for critical shortages and special-handling items when standard procedures do not apply. Additionally, it classifies and processes requisitions, redirecting requests to alternate supply sources or inventory control points when items are unavailable.
4. Determines stock replenishment levels for centrally controlled items while operating strictly within established funding limitations. It actively prevents the wasteful accumulation of excess inventory to ensure that organizational supplies and financial resources are not wasted.
5. Establishes management procedures for the calibration and testing of Test, Measurement, and Diagnostic Equipment (TMDE). Additionally, it monitors tool room operations, directly overseeing the accounting, issuing, and replacement of tools.
6. Assists FTUS supervisor to manage materials, forecast resource requirements, and provide budget tracking for DLR and CLIX items. Additionally, it works with FTUS TMDE manager to coordinate TMDE tool transactions and hazardous material accountability.
7. Performs other duties as assigned.
